

# EDVOTEK® Workshop Schedule

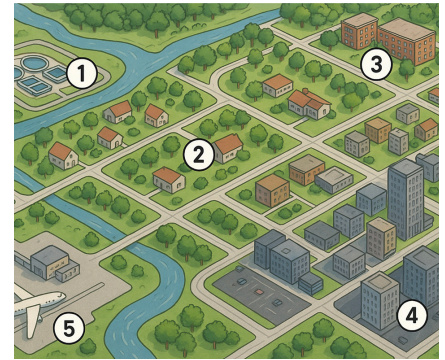

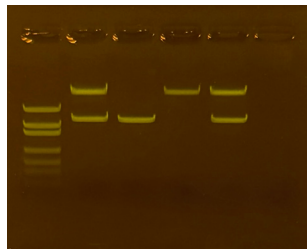

## 2025 CASE Conference

*Palm Springs Convention Center  
Palm Springs, CA*

FRIDAY, 10/17/2025

1:00 - 2:15 PM • Smoketree A - PSCC

### **Follow That Flush:** Using Biotechnology for Early Disease Detection

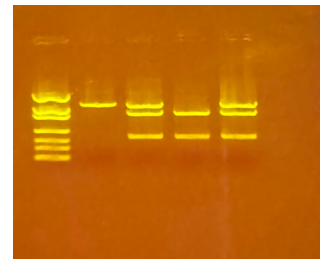

Want to learn about disease detection? Join us to explore wastewater testing for public health monitoring. Students use PCR and electrophoresis to test simulated water samples, gaining real-world insight into how this innovative technique monitors pathogens and protects communities.

SATURDAY, 10/18/2025

9:30 -10:45 AM • Smoketree A - PSCC

### **Cancer Investigators:** Biomedical Science in your Classroom

Cancer contributes to almost one in every four deaths in the USA. Fortunately, innovations in biomedical science improved our understanding of cancer cells, leading to cures. In this workshop, participants use microscopy and electrophoresis to explore the hallmarks of cancer.
